Sold by	Paul Edwards Seapower Australia Pty Ltd

Thanks to Brain Macken at Power Equipment for his continued support along with the team at Montebello Island Safaris (Brian, Jimbo & Chris) in Exmouth and also Tony at Alucraft for his wisdom. The **Yanmar 6LPA STP** was a perfect repower option replacing the tired 300hp VM engine. Perfect engine, perfect application for a perfect result without having the added expense of changing the jet !

The Powerful Gem
