Repowered	V8 Brunswick Diesel 100 hp
Technician/s	Paul / Phil
Date	19 Dec, 2008
Propeller Size	GR5 Nickel Bronze Alloy
Installation	Venom Marine

GoodEvans !!

This Chivers 28ft vessel is a fine example of a solid fiberglass boat from yesteryear. Previously powered with a Brunswick 100hp naturally aspirated V8 diesel this vessel went from a "no-go mobile mussel lease" to over 31knots! With a complete new dash layout, new QL hot water storage system and a powerful Volvo Penta D4 225 DP this vessel now has a new lease on life
